Department of
Agriculture

Rural
Development

Rural Utilities
Service

Through its Water and Environmental Programs, RUS administers a water and wastewater loan and grant program to improve the quality of life and promote economic development in rural America. At the State and local levels, the program is administered by field offices of Rural Development. In addition to loans and grants, RUS offers technical assistance, both directly and through contractors, and grants to nonprofit organizations.

WATER AND WASTE DISPOSAL DIRECT AND GUARANTEED LOANS

Purpose: Direct loans may be made to develop water and wastewater systems, including solid waste disposal and storm drainage, in rural areas and to cities and towns with a population of 10,000 or less. Funds are available to public entities, such as municipalities, counties, special-purpose districts, and Indian tribes. In addition, funds may be made available to corporations operated on a not-for-profit basis. Priority will be given to public entities, in areas with less than 5,500 people, to restore a deteriorating water supply, or to improve, enlarge, or modify a water facility or an inadequate waste facility. Also, preference will be given to requests which involve the merging of small facilities and those serving low-income communities. Applicants must be unable to obtain funds from other sources at reasonable rates and terms. The maximum term for all loans is 40 years; however, no repayment period will exceed State statutes or the useful life of the facility. Interest rates may be obtained from Rural Development field offices or on our website: www.usda.gov/rus/water

Guaranteed loans may be made for the same purposes as direct loans. They are made and serviced by lenders such as banks and savings and loan associations. Guarantees are available for up to 90 percent on any loss of interest and principal on the loan.

WATER AND WASTE DISPOSAL GRANTS

Purpose: Reduce water and waste disposal costs to a reasonable level for users of the system. Grants may be made, in some instances, up to 75 percent of eligible project costs. Eligible applicants are the same as for loans.

TECHNICAL ASSISTANCE AND TRAINING GRANTS

Purpose: Make grants to nonprofit organizations to provide technical assistance and/or training to associations located in rural areas and to cities and towns with a population of 10,000 or fewer. Assistance may be provided to identify and evaluate solutions to

water and waste disposal problems, to improve the operation and maintenance of existing water and waste disposal facilities, and to assist associations in preparing applications for water and waste disposal facilities.

SOLID WASTE MANAGEMENT GRANTS

Purpose: Make grants to public and private nonprofit organizations to provide technical assistance and/or training to associations located in rural areas and to cities and towns with a population of 10,000 or less to reduce or eliminate pollution of water resources, and improve planning and management of solid waste facilities. Assistance may be provided to enhance operator skills in operations and maintenance, identify threats to water resources, and reduce the solid waste stream.

RURAL WATER CIRCUIT RIDER TECHNICAL ASSISTANCE

Purpose: Provide on-site technical assistance to help assure cost effective operation of rural water systems. RUS has assisted rural water systems, via contracting, with day-to-day operational, financial and management problems. The assistance is provided at no charge and may be requested by officials of rural water systems or by Rural Development personnel. It complements supervisory assistance provided by Rural Development personnel.

APPLICATIONS

Information about the water and waste disposal programs and advice on how to assemble information to determine engineering feasibility, economic soundness, cost estimates, organization, financing and management matters, may be obtained from Rural Development field offices. These offices are usually listed in local telephone directories under the U.S. Department of Agriculture.

Revised August 2001

The U.S. Department of Agriculture prohibits discrimination in its programs on the basis of race, color, national origin, sex, religion, disability, political beliefs and marital or familial status. Not all prohibited bases apply to all programs. Persons with disabilities who require alternative means for communication of program information (Braille, large print, audio tape, etc.) should contact the USDA Office of Communications at (202) 720-7327 (voice) or (202) 720-1127 (TDD). USDA is an equal employment opportunity employer.
